

30-Minute Student Task

Build Your Own Rule-Based Python Chatbot

Name	KAKKE GOWTHAM
Reg No	99230040028
Dept	CSE(AIML)
Date	11-09-2026

Python Code

```
def simple_chatbot():
    user_name = input("Hello! What is your name? ").strip()
    print(f"Nice to meet you, {user_name}! I'm PyBot. You can ask me questions or say bye to exit.")

    while True:
        user_input = input("You: ").lower().strip()

        if "bye" in user_input or "exit" in user_input:
            print(f"PyBot: Goodbye, {user_name}! Thanks for chatting.")
            break

        elif "hello" in user_input or "hi" in user_input:
            print("PyBot: Hello there! How can I help you today?")

        elif "weather" in user_input:
            print("PyBot: I don't have access to the outdoors, but I hope the weather is nice where you are!")

        elif "joke" in user_input:
            print("PyBot: Why do programmers prefer dark mode? Because light attracts bugs!")

        elif "python" in user_input or "coding" in user_input:
            print("PyBot: Python is fantastic! In fact, it is the language you used to build me.")

        else:
            print("PyBot: I'm not quite sure how to respond to that. Try saying hello, or asking me about the weather, a joke, or Python.")

if __name__ == "__main__":
    simple_chatbot()
```

Expected Output

```
Hello! What is your name? KAKKE GOWTHAM
Nice to meet you, KAKKE GOWTHAM! I'm PyBot. You can ask me questions or say bye to exit.
You: hello
PyBot: Hello there! How can I help you today?
You: tell me a joke
PyBot: Why do programmers prefer dark mode? Because light attracts bugs!
You: what about python
PyBot: Python is fantastic! In fact, it is the language you used to build me.
You: bye
PyBot: Goodbye, KAKKE GOWTHAM! Thanks for chatting.
```
